

ZÜCO DucaRe
A classic
with a future.

A top favourite among visitors – Züco's DucaRe cantilever and swivel partner chairs. The comfort upholstery helps to prevent fatigue, even during stimulating discussions or intense meetings, while the excellent workmanship creates a good impression among guests. The natural Lavalina leather is available in numerous colours, allowing individuality for a place at the top. The lockable Synchron® mechanism can be quickly and effectively adjusted to the user's individual body weight during the movement process. With its constant counterpressure, it also provides useful support for the ideal posture when sitting. Thanks to its safety height lift, Züco's DucaRe adapts perfectly to any body size.

Design

Roland Zünd/Rüdiger Schaack

Specification

- swivel chair, conference chair and conference cantilever chair, medium-high and high backrests with armrests

Area of use

- Executive swivel and meeting chair for all office areas, especially management and conference rooms

Mechanism

- Synchronised mechanism with excellent movement process
- Safety release feature
- Side-mounted rapid spring-force adjustment, infinitely adjustable between 45 and 125 kg using torsion bar
- Backrest-seat tilt ratio of 2.7:1
- Backrest can be locked in 3 positions or set to permanent oscillation
- Seat-tilt adjustment 3° towards the front
- Sliding seat 60 mm depth-adjustable
- DIN tested, bears GS safety seal and conforms to EU standard
- Infinitely adjustable from 42-55 cm with safety height lift and comfort end cushioning
- Silver-coloured aluminium cover for the mechanism housing

Functions

- Anatomically-shaped seat and backrest
- Contoured lumbar section in moulded foam
- Individual body-weight adjustment

Base

- Five-star base in polished die-cast aluminium or, optionally, chrome
- Hard castors for soft floors, automatic locking even when chair is not in use
- Soft castors for hard floors (optional)

Cantilever chair sub-frame

- Chrome steel
- Plastic glides for carpet floors
- Felt glides for parquet floors, linoleum, stone

Armrests

- Rigid armrests with black PU armpads, optionally available with upholstered leather armpads in conjunction with chrome ST 37 steel backrest bar

Seat

- Polypropylene (PP) seat shell with breathable, CFC-free moulded foam cushion, easily removable
- Changeable seat upholstery
- Optional: chair cushion including air-cushioning layer

Backrest

- Multiple-bonded moulded beech wood and polyurethane (PU) hard foam, highly elastic tensioned fabric and breathable CFC-free moulded foam cushion, fully upholstered with selected two-tone cover materials, easily removable

Upholstery

- Breathable moulded foam upholstery, CFC-free, density 65 kg/m³ for seat and 50 kg/m³ for backrest. Upholstery fabrics can easily be sorted and recycled

Covers

- 8 cover qualities from the Züco Textile Collection
- 19 additional colours from the Trevira CS King/KingPlus Collection
- 23 additional colours from the Lavalina E/Lavalina/Imperial Leather Collection
- 20 additional colours from the Aquarius Collection
- material/leather supplied by customer can also be processed

Materials

- Multiple-bonded moulded beech wood
- Polished or chrome aluminium (base)
- Steel, ST 52 steel is used for high-stress parts, otherwise ST 37 is used. Steel components have a chrome finish (height lift, armrest bars, backrest bar, cantilever sub-frame)
- Polypropylene PP (castors, glides)
- Polyurethane PU (moulded foam cushions and pads)
- Highly elastic polyamide backing fabric (backing material)
- Polyester wadding, 100 g/m² (seat and backrest padding)
