30 range. Technical details.

Function
Formal and distinctive, high-end conference chair in two backrest heights. Armrests stylishly link the seat and backrest. Extreme, sprung (and at the sides also elastic) seating comfort due to three-point support with rear spring strut and sophisticated upholstery. Areas used: traditional conference and meeting rooms, executive offices and boards, high-quality restaurants or prestigious dining areas.

Frame
Four-star base in die-cast aluminium, bright chromium plated or polished. Black, multi-purpose glides made of plastic for all types of flooring. Columns can be swivelled with die-cast aluminium Y-shaped seat bearer, polished or bright chromium plated to match the star base. Permanently elastic, rubber / metal connecting elements. Spring elastic struts made of top-quality spring steel in black.
Seat and back
Seat and back frame made of metal, with wave springs, additional cushioning and fully padded with polyurethane.

Armrests
Armrests that connect the seat and back made of die-cast aluminium, polished or bright chromium plated to match the shell.
